

Best Tel To Showcase The Latest In Telecommunications Technology
At Their 2nd Annual Manufacturers Road Show

Leading Telecommunications Companies To Participate In Special Event

PORTLAND, OR — May 19, 2004 — Best Tel, LLC, Oregon's leading telecommunications provider, announced today that the company will host its 2nd Annual Manufacturers Road Show in Portland. The event enables companies of all sizes to learn about the latest in telecommunications technology, meet representatives from a variety of manufactures, and determine how their solutions may benefit the attendee's business.

"The Manufacturers Road Show was such an overwhelming success last year that we decided to do it again in 2004," said Dell Hoffert, branch manager of Best Tel. "This event is designed to give business owners the opportunity to see live demonstrations by the leaders in telecommunications such as Sprint, NEC, Adtran, CallWare, PolyCom, Active Voice and Trisys. We've selected these manufacturers based on the services they provide and the current needs in the marketplace. For example, attendees will have an opportunity to learn about communications solutions such as Voice over Internet (VoIP),

video conferencing, call accounting software, phone systems and more."

The Road Show will occur on June 3rd at the Holiday Inn near the Portland airport from 9:00 to 4:00 in Salon D and is free of charge. Attendees will have the opportunity to participate in four informative seminars covering topics on automatic call distribution and the latest in VoIP. Plus, everyone in attendance will receive free gifts from two of Best Tel's strategic partners – IPx Connect and ConferTel. Attendees will receive a 30 free trial of web conferencing from IPx Connect and 300 free minutes of teleconferencing from ConferTel. A continental breakfast will be served in the morning with lunch in the afternoon. "Best Tel's Manufacturers Road Show provides a one stop shop for companies located throughout the state of Oregon to come and learn about solutions to help them increase their profitability and give them a competitive advantage in their marketplace," stated Mr. Hoffert. "Our mission is to help our current and potential customers enhance their business by making them aware of

solutions that can have a major impact on their bottom line."
